

# The Explorers - Year 3

In Writing, we have created a double page spread based on knowledge from the story 'The Street Beneath My Feet' and what we have learnt in Science on Rocks and Soils.

In PE, lots of different hockey skills have been learnt such as; correctly holding the hockey sticks safely, dribbling, passing, controlling and working as part of a team.

We have been learning the colours in Spanish.

In Science, we investigated types of rocks, different soil layers and how fossils are formed.

In Art, we created a cave painting by exploring how to tint and shade using paint, and experimented with tone and line using charcoal.

In D&T, we enjoyed designing a shelter using information learnt in our history topic on the Stone Age and from our trip to The Time and Tide Museum.
