

# The Adventurers - Year 3

In Writing, we have created a fairytale story based on The Princess and the Pea and devised our own test to find a real Prince/Princess.

In History, we have been learning why we should remember the Ancient Maya and have explored many interesting skills ranging from their writing and number system to the Mayan calendar.

In Art, we designed our own Maya City glyph based on either a symbol of where we live or an important club that we belong to.

In Guided Reading, we have explored the book 'Rain Player' - a boy who must defeat the Rain God in a ball game to save his people from disaster.

In PE, we have learnt different passes used within basketball as well as dribbling and shooting.

In Science, we have investigated the different states of matter - solid, liquid and gas.
