

Pioneers - Year 6

We have been writing diary entries and a story chapter based on Shaun Tan's graphic 'The Arrival'.

We have enjoyed rounders, cricket and swimming in PE. Also, we have been increasing our fitness by running a mile.

Maths has been focused on statistics, shape and position and direction. We have created nets of 3D shapes and learned how to use a compass to draw circles.

For Geography, we went to Cambridge to gather information. Several children said they can't wait to go back!

In Spanish, we have been learning words and phrases related to family.

We went to the Crucial Crew event to learn about keeping safe in the community. We also had a visit from PC Sam Hale who talked to us about online safety and cyber-bullying.

We worked hard towards our SATS and our conduct during the tests was exceptional.
